

JAGADEESWARA RAO PEEDADA

Aspiring AI Engineer | Full-Stack Developer

jagadeesvarrao@gmail.com | +91 8790906267 | Visakhapatnam, AP, India

Portfolio: my-portfolio-five-mu-77.vercel.app | LinkedIn: linkedin.com/in/jagadeeswara-rao-peddada-652724270 | GitHub: github.com/jagadeesvarrao-design

PROFESSIONAL SUMMARY

Highly motivated AI Enthusiast and Full-Stack Developer specializing in building autonomous LLM agents, RAG pipelines, and responsive web applications. Proven ability to architect complete systems from backend databases (Python/SQL) to modern frontends (React/TypeScript). Seeking to leverage strong problem-solving skills and prompt engineering expertise to build impactful AI-driven products.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, HTML5/CSS3, SQL (PostgreSQL, SQLite)

Frameworks & Libraries: React.js, Next.js, Flask, Streamlit, TailwindCSS, Prisma ORM, SQLAlchemy

AI & Data: Large Language Models (LLMs), Prompt Engineering, RAG, Google Gemini API, Pandas

Tools & Concepts: Git/GitHub, RESTful APIs, Vector Databases, System Architecture

ENGINEERING PROJECTS

JARVIS (Autonomous AI Desktop Assistant) | Python, Gemini API |

github.com/jagadeesvarrao-design/JARVIS

- Engineered an autonomous agent that takes verbal descriptions and generates, compiles, and tests full-stack Flask web applications.
- Implemented Traceback-Aware Self-Healing logic that allows the AI to intercept crash logs and fix its own code bugs on startup.
- Integrated real-time computer vision and semantic memory capabilities using ChromaDB for context retention.

PromptLabs (Prompt Engineering Workspace) | Next.js, TypeScript, Tailwind | promptlabs-j8wm.vercel.app

- Designed and deployed a production-ready workspace bringing software engineering practices to LLM prompt creation.
- Developed Git-style version control for prompts, allowing users to track changes across staging and production with visual diffs.
- Built an automated A/B regression testing suite utilizing an 'LLM-as-a-judge' to grade response quality against custom rubrics.

QueryAI (Universal Text-to-SQL Analyst) | Python, Streamlit, SQLAlchemy |

github.com/jagadeesvarrao-design/QueryAI-TextToSQL

- Built a data analytics platform that translates natural English questions into optimized SQL queries for 5 major database dialects.
- Engineered an intelligent auto-visualization engine that inspects SQL result sets to dynamically render interactive Plotly graphs.

Intellidoc (AI PDF Assistant) | Python, FastAPI, RAG | pdf-analizing-and-answering-bot-1.onrender.com

- Developed a custom Retrieval-Augmented Generation pipeline allowing users to upload and chat with massive PDF documents.
- Implemented precise image cropping that physically scans PDF coordinates to display a visual bounding-box snippet to prove answers.

EDUCATION

B.Tech in Computer Science and Engineering | Miracle Educational Society (2022 - 2026) | 7.7/10.0 CGPA

Intermediate Education | Visakha Defence Academy (2020 - 2022) | Marks: 650/1000

Tenth Grade (SSC) | Sri Swamy Vivekanadha High School (Passed: 2020) | Marks: 428/600
